

I have been a REALTOR® for 15 years. During that time I have been a both a selling associate as well as a member of the leadership team. My experience includes working at offices in small markets as well as metropolitan areas. I have worked in leadership positions within brokerages as small as 20 agents and as large as 1,000 agents. The one common issue was the importance of effective communication. I know that being a District Vice President for the Southeast Region of the Colorado Association of REALTORS® will require great communication. Great leaders are great communicators. I believe my experience will assist me. I appreciate your consideration. Thank you.
